

Week 1 Focus this week:	Week 2 Focus this week:	Week 3 Focus this week:	Week 4 Focus this week:	Week 5 Focus this week:	Week 6 Focus this week:
Whatever next! By Jill Murphy	Look up! By Nathan Bryon	Planets	Astronauts	How to catch a star By Oliver Jeffers	Spring and the Easter story
Suggested home learning: Draw a picture of how you would travel to the moon or write a list of the things you would pack. Would you take something special with you? What else do you need?	Suggested home learning: What do you see when you look up? Can you find out one fact about the stars or make a star?	Suggested home learning: What planets are in our solar system? Discuss our planet and the order of the planets in relation to the sun. Which planets have the most moons?	Suggested home learning: Do you know the names of any astronauts? Can you find out a fact about one of them? Or look at what training you would need to become an astronaut. What kit would you	Suggested home learning: Can you think of a way that you might catch a star? Use a rope or create a trap? Draw or plan an invention.	Suggested home learning: Can you go on a spring walk? What can you see? Use your senses? Draw a spring picture or make a list of all the signs of spring.
